Guidance and Assistance in Navigating Disability Supports

Vision Loss Rehabilitation Canada (VLRC) offers support for navigating disability benefits. Through our GAIN Program, we are assisting individuals with education, applications and appeals for federal, provincial and territorial benefits and tax credits.

What is the GAIN Program?

VLRC's Guidance and Assistance in Navigating Disability Supports (GAIN) Program is funded by Employment and Social Development Canada. Through VLRC's GAIN Program, our Disability Benefit Navigators (DBN) are here to assist clients, free of charge. Our priority is to ensure that individuals within the GAIN Program are connected to the benefits and tax credits that they are eligible for.

How do we help?

Our Disability Benefit Navigators will assist you with the application process for tax credits such as the Disability Tax Credit (DTC) and the Canada Disability Benefit (CDB). We'll ensure you feel supported and guided every step of the way.

Our DBNs help with:

Providing information and answering your questions about disability tax credits and benefits.

Helping you and your family understand how to apply and what the qualifications are.

Assisting with paperwork.

Connecting with medical professionals for paperwork.

Guiding you in navigating the appeals process.

**This is completely free
for our clients.**

What credits or benefits can GAIN help with?

We're here to support you with education and application help for federal, provincial and territorial benefits and tax credits. If your application is denied for any reason, we also offer assistance with appeals. Some of the ways GAIN can help include the Disability Tax Credit (DTC), Canada Disability Benefit (CDB) and Registered Disability Savings Plan (RDSP).

How do I get your services?

You can find a page dedicated to the GAIN Program, including a referral form, on the VLRC website (www.visionlossrehab.ca/en/disability-benefits-navigation). Please complete the referral form to register for services through the GAIN program. If you have any questions, please email gain@vlrehab.ca.
